# TIU Footprint

- 5 current sanctioned players (December 2018)
- Match Alerts
- Reports of corrupt approaches to players
- Cooperation from tournaments, national associations and officials
- Players and officials have cooperated with our investigations
- Engaged with betting regulator

“ The nature of the game lends itself to manipulation for betting purposes. There are many contingencies. There is only one player who must act. Detection is difficult, not least because at many lower level matches there are no spectators and inadequate facilities to protect players from potential corrupters. ”
